

2023 EXTERIOR IMPACT CATALOG

BHIDoors

bhiflorida.com

Quality components create the total package.

BHI Doors is a collection of best-in-class components (doors, doorglass, frames, astragals, weather seals, thresholds, locksets, and hardware) used to create entry systems with enduring good looks and superior performance. The majority of our door systems are tested to the HVHZ (High Velocity Hurricane Zone) standards, the most stringent hurricane codes anywhere in the United States. Most BHI Door Systems meet the minimum Florida Energy code.

Great craftsmanship, beautiful glass patterns, multiple finish hardware options, superior construction, and energy-saving features all come together in a wide range of entry systems that enhance the value of your home and add beauty to everyday living.

BHI Doors Commitment

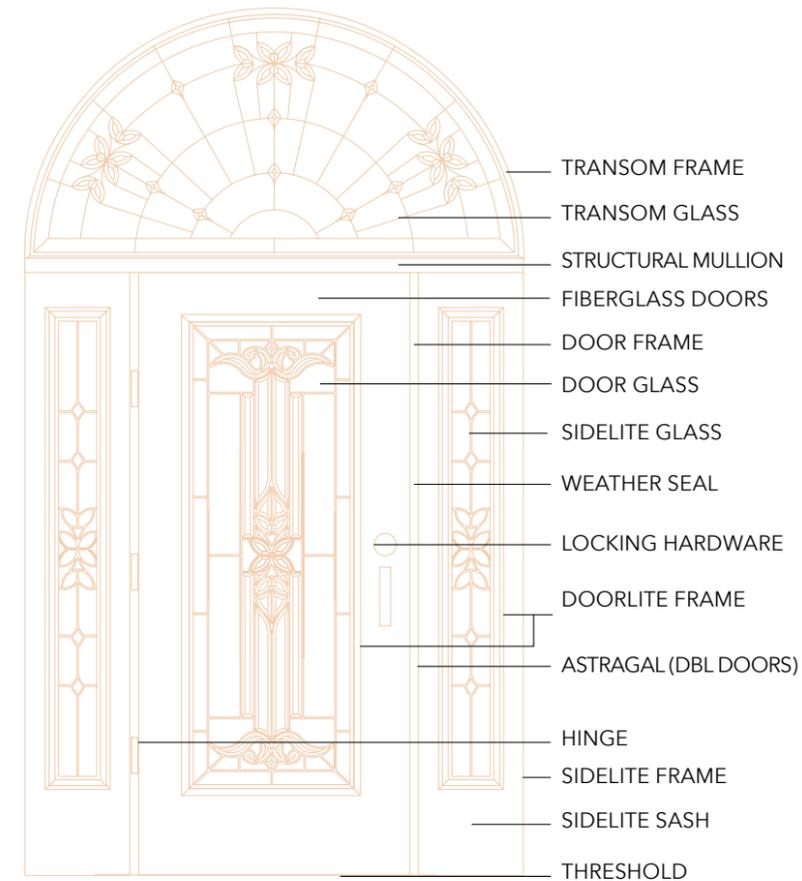

All products featured are in stock ready to be built unless marked special order.

Unless otherwise noted, all products featured can be built into door systems that are compliant with hurricane structural, hurricane impact and the latest energy codes.

BHI Doors continues our commitment to service excellence as we bring enduring beauty and value to exterior doors throughout Florida. – Established in 1954.

THE BHI SYSTEM

Add beauty to and increase the value of your home with ODL's innovative line of doorglass.

FIBERGLASS DOORS AND PF FRAMES™

A lifetime of exceptional durability and performance for every door around your home.

CUSTOM GLASS

Custom glass for doors, sidelites, windows and transoms.

VENTILATING DOORS

Let in the breeze without compromising security with an optional window insert in your door (with a security screen).

THRESHOLDS & ASTRAGALS

For additional security and weather protection our systems use DLP thresholds and astragals.

RESIDENTIAL LOCKSETS

Superior functionality and long lasting beauty.

RESIDENTIAL HARDWARE

Easy installation and secure performance.

TRILENNIUM™ MULTI-POINT LOCKS

The ultimate fiberglass door security system. Multiple latches and bolts prevent forced entry and create additional weather sealing.

ETCHED GLASS

A unique line of doorglass inserts styled for Florida living. Etched glass displays traditional sandblasting.

BHI Weather-seals

Keep cool air in and keep bugs out while benefiting from improved energy efficiency.

DOOR ACCESSORIES

Give your door more character by adding speakeasies, dentil shelves, or clavos.

BHI Hinges

Specially designed for high-performance and tested for long lasting endurance.

BHI STANDARDS

Sustainability

Your BHI Entry System will be built to stand the test of time in Florida's often unforgiving climate. We strive to use as many Eco-Friendly and Energy Efficient components as possible to preserve the environment and help lower your energy bills.

- Entirely Composite Frames
- Insulated Fiberglass Doors
- High Quality Weatherstripping
- Low-E & Turtle Glass Options

Accessibility

Your BHI Entry System can be designed to help you and your loved ones easily access it. We carry multiple A.D.A. compliant components and hardware options specifically designed with ease of use in mind.

- A.D.A. Slabs, Glass, & Hardware
- Ball Bearing Hinges
- Spring Hinges
- Code Approved Pet Doors

Security

The same added strength that helps Impact products protect your home from hurricanes, can also help protect your home from intrusion. In addition, your BHI Entry System has many other component and hardware options designed to give you peace of mind.

- Impact Slabs & Glass
- Multi-point Locking Systems
- Touchscreen Deadbolts
- Privacy Glass

Appeal

Enhance the beauty of your home with our wide variety of Art Glass options from 5 different design families. Whatever your home's aesthetic is, we've got the Entry System you need to make an even bigger impression.

- Camed & Etched Glass
- Multiple Texture Options
- Multiple Glass Frames
- Paintable/Stainable Components

* While BHI stocks components needed to build many of the Door Units shown in this catalog, not all combinations of options are available in all Unit Widths. Most Door Unit Builds that appear in this catalog can be built in either Woodgrain or Smooth skin type Systems; however, there are some that will only come in the Skin Type shown in the catalog for certain Door Unit Widths. For more information, consult the availability guide in the back of the book.

DESIGN IDEAS

DESIGN IDEAS

COASTAL

The Coastal home style is relaxing, light, and breezy. Its open design and lighter tones mirror the natural beauty of the shoreline.

CONTEMPORARY

Contemporary homes reflect the architecture and design of today. They represent sharp design and clean curb appeal.

CRAFTSMAN

CLASSIC

Craftsman homes emphasize hand-worked touches and beautiful detailing. Popularized at the turn of the 20th Century, it remains a popular design aesthetic.

Classic homes are comforting and familiar. Their interiors are calm, orderly and consistent.

DESIGN IDEAS

CARIBBEAN

The Caribbean design combines aspects of Mediterranean, Spanish, and many other tropical architectural styles. Rustic textures compliment vivid color schemes in an inspiring mix of old world charm and casual playfulness.

CUSTOM DESIGNS

Camed Designs
Caming is the thin metal work that joins together the door glass elements. Camed units are available as custom one-of-a-kind or complementary of any designs.

Metalist Designs
Our Metalist designs are composed of aluminum sheets cut to a design or style of your choice, and sandwiched between insulated glass. Metalist units are available from existing designs, as custom one-of-a-kind or complementary of any designs.

One Light Turtle Glass

Thousands of marine turtles nest in U.S. coastal areas. State and local ordinances protect hatchling turtles by limiting the brightness of inside-to-outside visible light transmittance.

All turtle glass designs shown below have been constructed to meet those local standards.

Turtle Glass is Solar Gray - Solar Gray (SGSG).

Ventilating Doors

This product by DLP Industries is an operational window insert/door combo. When the window is open, fresh air is introduced into the home, eliminating the need for a screen door.

Perfect for beach side residential dwellings. Excellent for condominium doors, patio doors, cabana bath doors, and side garage doors.

Manufactured in Florida.

The following optional glass types are available.

Low-E	Milky White	Obscure	Gray*	Turtle*

*Insulated
Pet Door*

Don't keep your best friend waiting!

- For pets up to 90 lbs
- This system meets ASTM F588 300 lbs forced entry
- Meets structural, cycle, impact, and water testing for Florida's WBD regions. DP rating: Inswing +50 /-60 Outswing +45 /-45
- Low maintenance, energy efficient, extremely durable flap and frame

The flexible flap uses durable vinyl weatherstrip and rare-earth magnets to create an energy efficient seal when not in use.

The flap is clear so you and your pet can see whats on the other side

Available in the following size:
Large Pet: 10-1/4" wide X 15-1/4" high flap

*Insulated
Pet Door*

TRILENNIUM[™] Multi-Point Locking System

Security. Strength. Reliability. Performance.

Unmatched security doesn't have to mean compromised style. Trilennium offers a growing portfolio of attractive handset designs that work in conjunction with a locking mechanism which installs into a router carved pocket in the edge of your door. This mechanism features one solid unit with three latches based on patented I-Beam construction for reliable, proven strength and performance. Operating as one unit, all three latches engage when the door is closed. One movement of the thumb-turn or key turn activates all three deadbolts. Each latch is a deadbolt which adds increased protection for any entryway.

- Patented Strike Rollers and latches draw the door panel into perfect alignment with the jamb for a tight seal with no deflection
- A single downward turn of the interior handle releases all three deadbolts making it panic-proof
- Keying available; BHI Stock has a SCHLAGE C Keyway, and can be keyed to Yale locks for whole house compatibility. Also available in Smart Key!
- Manufactured in the USA

COMPLIANCE**

**ENERGY
COMPLIANCE**

**STANDARD
FEATURES**

COMPONENTS

**AVAILBILITY
GUIDE**

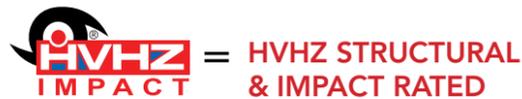

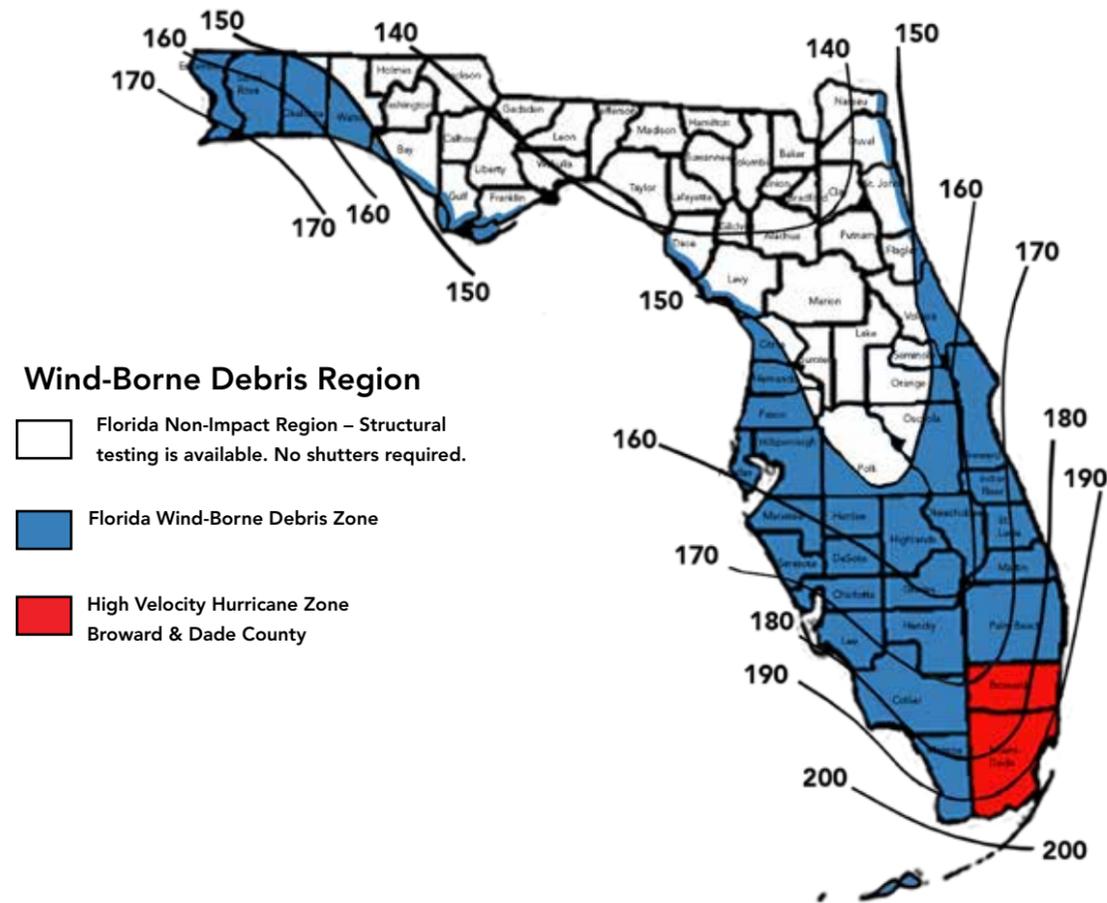

HURRICANE COMPLIANCE

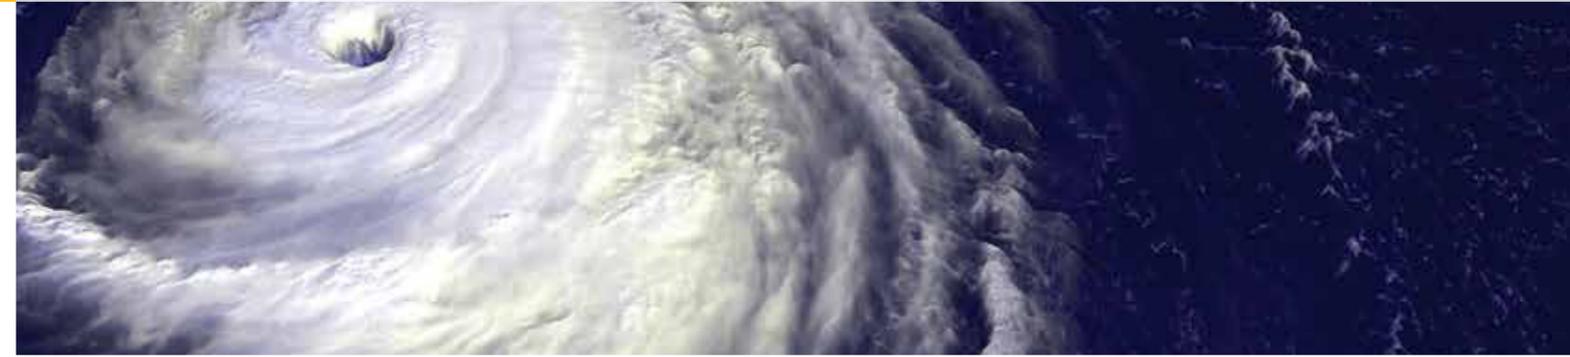

Our expertise in Florida and High Velocity Hurricane Zone (HVHZ) building codes means you can trust **BHI Doors** systems to comply with the unique requirements needed for hurricane code compliance.

Impact units have structural ratings and may be used in the HVHZ and/or WBD impact zones without shutters required.

HURRICANE COMPLIANCE

Doors made to withstand high pressure

BHI quotes and order acknowledgments list the product approvals needed for each pre-hung door system. For additional code approvals and specific design pressure ratings, please see BHI Price Guide

Some doors are approved for HVHZ for in-swing application but may have overhang requirements. Some systems with very high design pressure ratings may require surface bolts, and/or dead bolt security strikes.

BHI does not warrant the suitability of any product for any specific use. For additional code information, contact a BHI representative, speak with a local plans examiner's office, or contact a contractor or engineer.

ENERGY COMPLIANCE

ENERGY COMPLIANCE

BHI and our suppliers of major fenestration components have made it a joint effort to focus on compliance with the Florida Building Code - 5th Edition Energy Conservation.

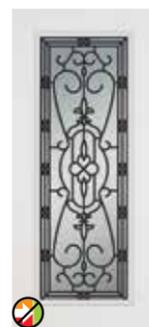

Catalog pages containing only product that meet the minimum energy standard for both solar heat gain coefficient (SHGC) and U-Factor in both climate zones will display this logo at the top of the page:

Individual products that DO NOT meet the minimum energy standards will display this logo:

Individual products that DO meet the minimum energy standards will display this logo:

Full Lite 6/8
DRG00-JA

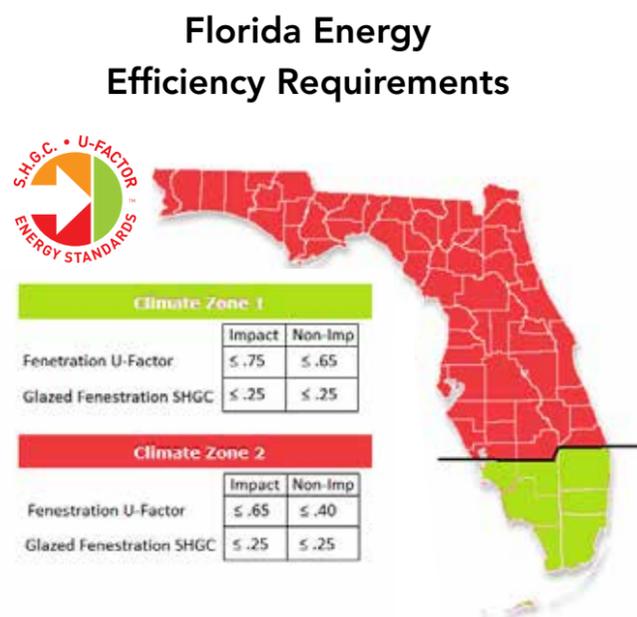

3/4 Lite Over 1 Panel 6/8
DRS29-JA

ENERGY CODE EXEMPTIONS

There are also exemptions for products that DO NOT meet the energy standards.

The Prescriptive method of compliance allows up to 15 square feet "of glazed fenestration" per dwelling unit to be exempt from the U-factor and SHGC requirements R402.1.(1), and also one side hinged opaque door assembly up to 24 square feet to be exempt from U-factors (Section R402.1.(3 & .4)). If using this exemption, doors bearing this mark may be used as single door units. Other exemptions for doors bearing that mark may be used when using whole house energy engineering compliance method.

BHI and its suppliers of major components are Energy Star Partners.

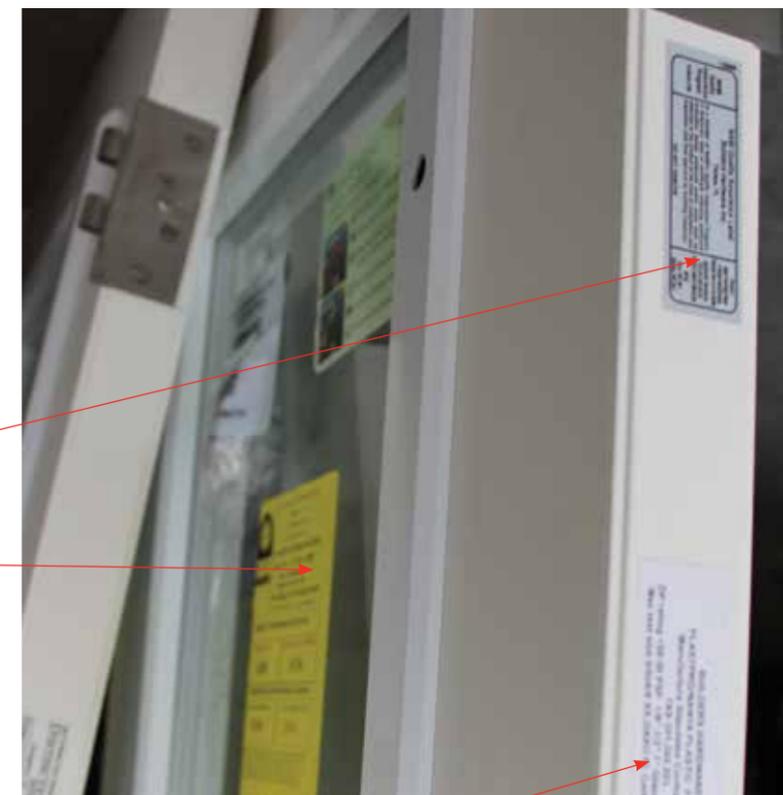

ENERGY LABELING

Labels will have specific certified products directory (CPD) numbers listed. These are the numbers listed in the certified products directory of the National Fenestration Rating Council (NFRC). The CPD numbers listed under BHI are also listed with our third-party quality assurance provider, National Accreditation Management Institute (NAMI) for thermal quality assurance compliance.

BHI doors that meet the Energy Standards will have at least 2 Energy Performance labels.

- One permanent label attached to the hinge side of the door slab.
- One temporary label which will be attached to the face of the door.

STRUCTURAL CERTIFICATION LABELING

Builders Hardware inc.
Plastpro/Nanya Plastic FL# 15210.4
MANUFACTURER STIPULATES CONFORMANCE TO:
TAS 201,202,203 - ASTM E48 NOA 17-0712.05/16-0314.11
DP RATING +75-75 PSF 1/8", 1/2", 1" GLAZED UNIT IN/OUT
MAX TEST SIZE 3/0 X 6/8 X
FL CERT # 1773 ANSI # 0651

Specific Labels are used when exact design pressure ratings are required for specific size door configurations, within our test matrix qualifications. Structural Certification Labels are created for specific units with specific stipulations which conform to varying codes within the state.

BHI does not warrant the suitability of any product for any specific use. For additional code information, contact a BHI representative, speak with a local plans examiner's office, or contact a contractor or engineer.

COMPONENTS

COMPONENTS

Aluminum Astragals

Aluminum exterior door T-astragals that offer security, and also stand out with honor among the best under Florida building code testing.

Available in White or Tan Primed in 6/8, 7/0 and 8/0 sizes

Adjustability

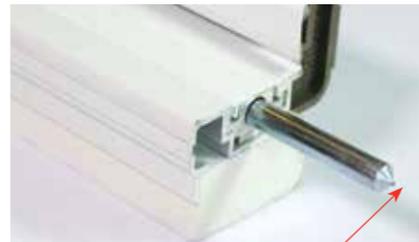

4-way adjustable (horizontal and vertical) strike latch plates.

Security

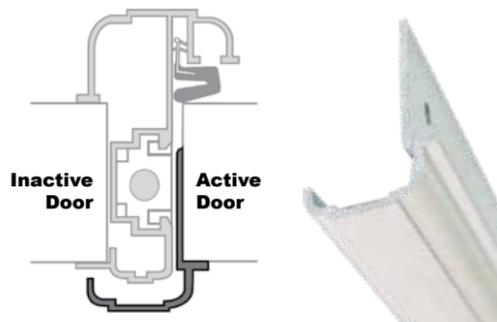

Flip lever locks

Precision

Slide bolt with machined center punch allows for precise bolt location and ease of installation.

Flat Contoured

Add on an Astragal Security Strip to any outswing double door combination for added security and clean finished appearance eliminating the reveal between the doors.

Aluminum Thresholds

Keep the bugs out and the air in. Available for inswing, outswing and handicap accessibility doors. Available in Mill, Black or Bronze Finish.

Sizes: 4 9/16, (extenders for 5 1/4, 6 9/16, 7 1/4)

POWERED BY RENOWorks

AVAILABILITY GUIDE

This Availability Guide can be used to determine if the door system you want can be built in the Width you need as recommended for your specific Region's structural and impact testing standards. Each row indicates one combination of Design, Build, Unit Height and Skin Type Options. You will be able to see what Unit Widths are available for each Region off to the right.

Availability for Double Door Units (-D) is the same as for the Single Door Units (-S) that use the same width door slabs.

WBD = Unit Widths that can only be built as recommended for Wind Borne Debris Region standards.

HVHZ = Unit Widths that can only be built as recommended for the tougher High Velocity Hurricane Zone Region standards.

BOTH = Units Widths that can be built as recommended to meet either Region's standards. You will need to specify which Region you wish to have this built for when ordering these. Units that meet HVHZ standards will also meet the WBD standards, but could cost more as they use some components manufactured with added reinforcements.

Please provide the Unit Code Prefix for your selection when placing your order. In addition to that, you'll need to specify a Single or Double Unit, and specify WBD or HVHZ for any option which shows BOTH available.
